Examiner's Amendment

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Ken Hoffmeister on December 16, 2005.

The application has been amended as follows:

Allowable Subject Matter

2. Claims 1-3, 5-11, and 14-24 are allowed.

The following is an examiner's statement of reasons for allowance: Tomes (US 4,349,809) discloses a vibration switch similar to the vibration switch of the present invention; however, the vibration switch disclosed by Tomes is secured to a vehicle dashboard. It would neither be obvious nor practical to locate the vibration switch of Tomes on a strap carried by a dog since the vibration switch is not designed to be

comfortable located on an animal. Moreover, the prior art indicates that this particular device is novel and has not been published or patented by other entities.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
